committed, at all times."*

Our Services

Owner and Operator of Tugboats and Barges

We own and operate a fleet of tugs from 2,000bhp - 4,000bhp and barges from 90ft - 330 ft. The vessels are deployed for marine coastal projects like reclamation, construction of jetties, towage of barges, towage & deliveries of various vessels, such as *dredgers*, *tankers*, *bulk carriers*, *LCT*, etc. Our harbor tugs are involved in ship-to-ship operations as well as supporting port operations.

Marine Towage and Transportation

Our vessels provide marine towage for ocean-going voyages. Additionally, the vessels are capable of providing assistance to vessels in distress or disability to steer on its own.

Track Record

Recent Vessel Towage:

- Towage of Dredger LOA 100m (2,300nm journey).
- Towage of Barge LOA 250ft (2,200nm journey).
- Towage of AHTS LOA 65m (1,800nm journey).

Transporting aggregate (rock) with our 330ft barge (1300nm journey).

Harbor Tugs to assist vessels in berthing & unberthing.

Professional Crews

In selecting crews, not only we select them based on their high qualifications and capabilities, we also seek individuals with positive characters and entrust them to deliver a smooth operations and delivery.
